

## MiMTSS Data System Directions: Registration Form

These directions describe how to ensure your contact information is available in the MiMTSS Data System. This provides the Michigan Multi-Tiered System of Supports (MiMTSS) Technical Assistance Center with your contact information and professional roles. The registration process helps to expedite access to information needed for MTSS professional learning records and will expedite the process of assigning login access for the appropriate individuals. Completing the registration form alone does **not** provide login rights to enter and access data in the MiMTSS Data System. Login access is assigned by an individual with the MiMTSS Data System Domain Administrator role. This is often an MTSS Coordinator, District Liaison, Principal, or Systems Coach.
